

eBooks Are 20% Off From Now Until June 15th!

NetLibrary's eBook Subject Sets are a great way to start building an eBook collection or add to an existing collection. Subject Sets are a group of pre-selected titles based on a subject area and range between \$1,000 and \$5,000 each.

eBooks Subject Sets are a one-time purchase: once you pay for the set, you own the set – no annual fees.

Subject Sets are selected to meet the needs of Public Libraries, Academic, Community College, and Corporate Libraries, although any library may purchase any set.

Topics include:

- Business
- Psychology
- Nursing
- Career Guides
- Information Technology
- Project Management
- Travel & Leisure
- Books with Feet (those books that seem to get up and walk away from public libraries!)

For a more complete list of topics and more information about eBooks, please visit: <<http://www.oclc.org/ebooks/subjectsets/>> or contact Jen Hawkes, OCLC Services Librarian at Nylink, via phone (518-443-5444/800-342-3353) or email (hawkesj@nylink.org) for more information.
